TORTILLA

DIY

Nacho Kit

Sweet dreams are made of cheese and our nachos queso are no exception. Crunchy tortilla chips smothered in our addictive chipotle cheese sauce, hand-smashed guacamole, fresh salsa and jalapeños – perfect to share or enjoy all to yourself (we don't judge)!

LET'S GET MAKING...

- 1** Pour the cheese sauce into a microwavable dish or small saucepan (wash and recycle the plastic pot). Heat for 40-60 seconds in a high-watt microwave or over a medium heat on the stove, stirring regularly until piping hot (steaming with a slight bubble).
Optional: follow the same steps as above to heat the pre-cooked chicken or vegan chilli until piping hot.
- 2** Empty half the bag of tortilla chips on to your plate and carefully pour over half the cheese sauce. Repeat with the remaining chips and cheese sauce to make 2 layers.
Optional: top the second layer of chips and cheese sauce with the heated chicken or vegan chilli.
- 3** Spoon the guacamole on top, followed by the salsa (drain away the juices to avoid soggy chips).
- 4** Finish with chopped jalapeños to your liking (careful they're spicy!) and dig in – Provecho!
